

TYPE: FLANGE WELD TESTER

Product: FLANGE WELD TESTER
Pipe Schedule: VARIOUS
ANSI Rating: 150 - 900 Standard (*higher on request*)
Size Range: 1/2" trough 24" (*larger sizes on request*)

PolyEurope's Flange Weld Testers reduce the cost by carrying out localised pressure testing on new and existing flange welds and pipe components.

Each test utilises a minimum amount of water.

The body is manufactured from high grade carbon steel.

The seals are manufactured from high performance polyurethane elastomer.

General Function and Application

- **Incorporates integral safety bypass port.**
- Tools capable of carrying out horizontal, vertical and inclined applications.
- Non-standard sizes available - please request information.
- No special tools required.
- Easy to install and remove.
- Self locating capability.
- Suitable for use with most test mediums.
- Can be used in a range of pipe schedules.
- Instructions and hydrostatic test certificates supplied.
