Pipeline Services and Consultancy

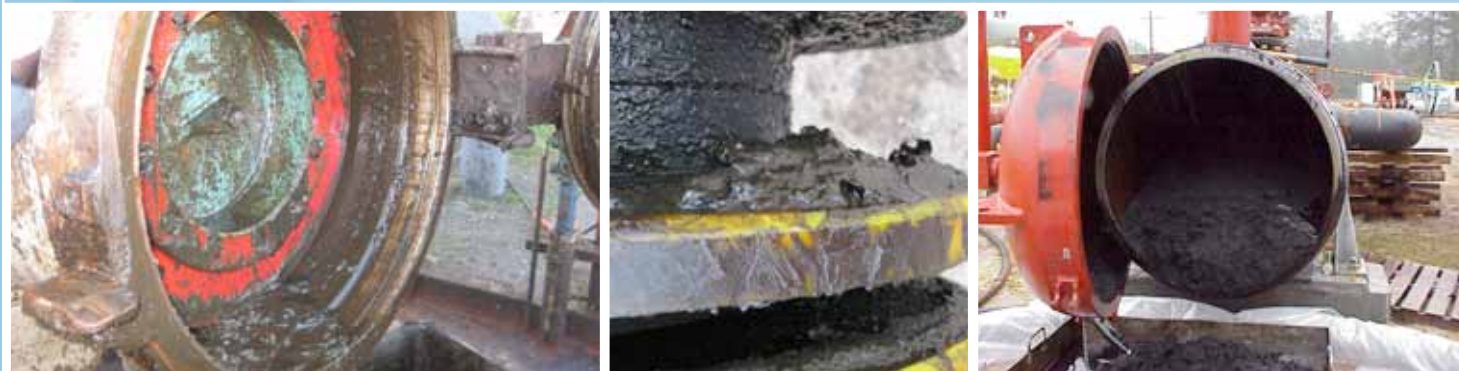

PolyEurope is a solution provider for bespoke Oil & Gas Pipeline Services and Consultancy and equipment sales. These services are also offered to Water Boards and Municipalities dealing with sewage and water pipelines. Our primary focus is to deliver quality end-to-end service packages and innovative solutions where each service and solution is individually designed and delivered to our client's needs.

PolyEurope can support your business Onshore & Offshore through the provision of experienced and multi skilled crews across the following range of fully complementary services;

Pipelines in Pre-Commissioning and De-Commissioning stages.

PolyEurope can undertake a complete Commissioning programme through the services and equipment available.

PolyEurope's Pipeline Services include: Pigging & Pig Tracking, utilising Cleaning, Gauging, Calliper & In Line Inspection Services, Product Displacement, Pipeline Drying and Hydrostatic Pressure Testing of Pipelines, Extensions, Flanges and Internal Welds.

PolyEurope operates as an Independent Pipeline Service Provider and has the flexibility to work with most of the well-known In Line Inspection companies around the world.

PolyEurope consequently is able to advise clients with cost saving solutions for both MFL and UT Inspection techniques.

PolyEurope can operate as main contractor with the flexibility to provide bespoke solutions as a stand-alone service.

PolyEurope provides a full range of Pipeline Pre-Commissioning, De-Commissioning Services to the International Oil & Gas Industries, Lay Barge and Subsea Contractors. A combination of experienced personnel and considerable investment in the appropriate equipment has allowed **PolyEurope** to become a reliable player in the Pipeline Services marketplace.

PolyEurope's mission is to be a reliable and professional service provider, lasting relationships and gaining trust are imperative for **PolyEurope's** Pipeline Services and Consultancy.
